BILLY CESAR SORIANO

COST CONSTRUCTION ESTIMATOR • PROJECT COORDINATOR • CONSTRUCTION VIRTUAL ADMIN • PROJECT PLANNING

ABOUT ME

Hi, I'm Billy you may call me Bill . I'm a Civil Engineering graduate with a passion for design, construction, and problem-solving. I specialize in digital cost estimation, plan analysis, and creating efficient workflows. I'm a detail-oriented and creative thinker who enjoys learning new tools and technologies that make work smarter and more accurate.

Beyond engineering, I love exploring design, building my digital skills, and discovering how technology can improve project management. Outside of work, I enjoy cooking Filipino dishes, trying new recipes, and relaxing with my ukulele or guitar. I believe in teamwork, positivity, and continuous growth, and I'm driven to contribute to meaningful, real-world projects.

WORK

SALES COST ENGINEER (2022 - 2023)

PROJECT ENGINEER (2023 -

SITE ENGINEER (2025 - 2026)

SCR TECH INDUSTRIAL

Presented and demonstrated products to clients

while managing quotations, client communications, and contract negotiations. Performed accurate

refrigeration quantity take-offs using Bluebeam for plan review, Excel formula-based computations for cost breakdowns, and AutoCAD to extract actual dimensions directly from drawings to achieve highly precise estimates. Strengthened customer service and communication skills through continuous direct interaction with clients,

ensuring clear understanding of project requirements and delivering reliable, data-driven cost proposals.

EFFEXS BUILDERS

Managed construction schedules, cost estimates, and daily progress reports to ensure effective project execution and on-time completion. Utilized Planswift, Bluebeam, and AutoCAD to extract accurate quantities and actual dimensions from drawings, and applied Excel formula-based calculations to generate precise cost breakdowns and budget analyses. Supervised on-site activities, conducted coordination meetings, and maintained thorough documentation of project progress. Prepared and submitted regular reports to managers, owners, and clients, while enhancing workflow efficiency through well-structured digital file management and organized reporting systems.

HANNA VIA CORPORATION

Prepared detailed project reports and managed site documentation to support efficient project execution. Utilized Planswift, Bluebeam, and AutoCAD to extract accurate quantities and actual dimensions for project cost estimates, applying Excel formulas to produce precise and organized cost analyses. Implemented site monitoring procedures to ensure strict adherence to construction plans, specifications, and quality standards. Conducted regular coordination meetings and training sessions to strengthen communication, reinforce safety awareness, and maintain consistent work quality among site teams. Supported project administration, progress tracking, and compliance with design and regulatory requirements from project initiation through completion.

TOOLS AND SOFTWARE

SKILLS

- Quantity Takeoff
- Subcontractor Reachout
- Supplier Reachout
- Managing Bids of Subcontractor
- Costing
- Project Coordination
- Project Coordination
- Project Management
- Bid Leveling
- Email Management
- Project Planning
- 3D Rendering
